GCUF

2018-2022   3.44 CGPA

CAREER SUMMARY

Front End Developer with 1.5 years of experience in building user-friendly, responsive web applications using React and a strong understanding of back-end technologies. Proficient in React.js, Node.js, JavaScript, Redux, and MongoDB, with hands-on experience in 4+ projects. Collaborative team player committed to clean code and continuous learning.

WORK EXPERIENCE

Frontend Developer

ScryptHub   JULY - 2023 / continue

Worked extensively with React JS to create responsive web interfaces using React.js, Next.js and JavaScript, while handling API integration. Enhanced front-end skills and gained backend experience with Express, Node, and MongoDB. Collaborated with design teams to ensure seamless user experiences and implemented efficient, maintainable code.

MERN Internee

Excellence Delivered (ExD) Pvt Ltd   MAR - 2023 / JUN - 2023

During my internship, I worked with React.js, Express, Node, and MongoDB, creating visually appealing and responsive web interfaces using React.js. This experience strengthened my front-end development skills and provided a solid foundation in React JS.

Front-end Internee

UNIAL SOLUTIONS (PVT LTD)   SEP - 2022 /NOV - 2022

During my internship at Unial Solution Pvt Ltd, I focused on React JS, enhancing my skills in building dynamic web applications with components, state management, and hooks. This experience significantly strengthened my front-end development abilities and provided a solid foundation in React JS.

PROJECTS

Elara | By SF

I contributed as a lead frontend developer to an e-commerce website, including designing and developing the customer portal, landing page, and admin panel. The project utilized Next.js, React.js, Node.js, Express.js, and MongoDB.

ScryptHub

I led frontend development for the company's portfolio website, designing and developing various web pages. The project was built using React.js.

ChatBot

I led frontend development for a ChatBot website inspired by ChatGPT, designing the frontend and integrating APIs. The project was developed using React.js and OpenAI.

Additionally, I have experience with various other projects, including e-commerce and university final year projects centered around web development.
